

Microsoft Copilot Accelerator

Unleashing the Power of Copilot with CPS.

CPS' Microsoft 365 Copilot Accelerator is a tailored engagement designed to fast-track your organisation's integration with Microsoft 365 Copilot.

Our expert-led programme bridges the gap between software acquisition and effective implementation, ensuring your business leverages the full suite of Copilot capabilities.

Microsoft Customers Using Copilot.

Phase 1: Discovery

- **Initial Assessment Workshop:** *Comprehensive evaluation of the existing infrastructure for Copilot readiness.*
- **Change Management Planning Session:** *Creation of a strategic plan for navigating organisational change.*
- **Technical Preparation Workshop:** *Ensuring all technical bases are covered for a smooth Copilot integration.*
- **Training Material Development:** *Crafting tailored training materials for effective learning.*
- **Communication Plan Drafting:** *Developing a strategic communication plan to support the change process.*

Phase 2: Technical and Communication Readiness

- **Enablement and Testing:** *Activate Copilot features and validate functionality through testing.*
- **Training Session for Champions:** *Empowering key personnel to lead and support Copilot adoption among peers.*
- **Company-Wide Training Sessions:** *Delivering targeted training to staff, ensuring readiness for Copilot use.*
- **Extend Copilot using Copilot Studio:** *Enable Copilot to search across line of business or third party apps and systems.*

Phase 3: Enablement and Empowerment

- **Review and Optimisation Session:** *Evaluating the initial deployment, gathering feedback, and identifying areas for refinement.*
- **Full-Scale Rollout:** *Implementing Copilot across the organisation.*
- **Value Usage Analysis and Business Impact Measurement:** *Assessing the effectiveness and business impact of Copilot.*
- **Continuous Improvement Planning:** *Identifying opportunities for ongoing enhancements.*
