

# TAKING PROJECT DELIVERY TO NEW HEIGHTS.

Save time and money with CPS' PPM Solution Accelerators for Microsoft 365

Gain control and visibility of your project portfolio with CPS and the Microsoft Power Platform. Both quick to deploy and simple to adopt, the CPS Solution Accelerators give you extensive visibility of your portfolio. Providing you with the management information, you need, to make the right decisions at the right time.

# CPS Solution Accelerators

Easy to deploy, customise and adopt, with a project based solution on the Power Platform, our modules will enable you to be up and running in a matter of days.

CPS Solution Accelerators add significant value by providing pre-configured views, reports, access controls and templates.

## Central Repository

A single version of the truth with a central repository for all your projects. Providing an instant status update on your portfolio with fully configurable views.

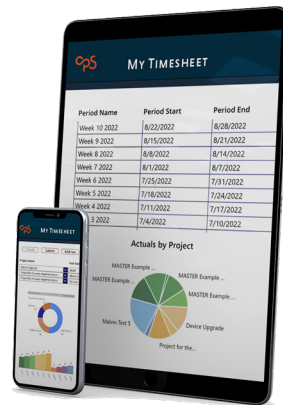

## Financial Manager

Budget, monitor and control your project financials using the CPS Financial Manager Solution Accelerator. Track internal and external costs comparing budget, actuals and forecast.

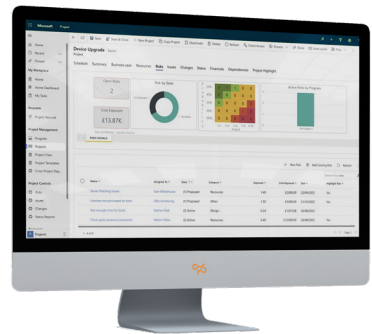

## Timesheets

Track time spent from team members in a simple PowerApp, surfaceable within Microsoft Teams. Timesheets integrate directly with Project for the web and have configurable approval workflows.

## Reports and Dashboards

Automate your reporting and provide valuable management information. Snapshot capabilities to monitor trends and report against baselines.

# Features
